

PRECISION IN METAL.

Tools, components, spare parts and welded assemblies for heavy industry, energy, mining, construction, public institutions and international organisations.

COMPANY OVERVIEW

BUILT ON EXPERIENCE. DRIVEN BY PRECISION.

Fabrika Veglave Plus Aparateve Elektrike SH.P.K is a precision metal manufacturer based in Ferizaj, Kosovo. Founded in 1965 and privatized in 2006, the company has grown into a modern producer of precision components and assemblies, with a sharper focus on efficiency, innovation and the exact requirements of every client.

CORE COMPETENCIES

METAL, MASTERED.

01

CAD ENGINEERING

From technical drawings to production-ready solutions, our engineering office turns complex requirements into precise components.

02

CUTTING

Accurate material preparation and cutting for custom parts, assemblies and demanding industrial applications.

03

TURNING & MILLING

Precision machining of housings, shafts, gears and specialized components with modern equipment and skilled operators.

04

HEAT TREATMENT

Controlled thermal processes that improve material hardness, strength, durability and performance.

05

GRINDING

High-accuracy finishing for exact dimensions, refined surfaces and dependable mechanical performance.

06

WELDING

Reliable welded structures and assemblies produced with a rigorous focus on integrity and consistent quality.

PAST PERFORMANCE

TRUSTED BY INDUSTRY AND INSTITUTIONS.

Welding quality

U.S. GOVERNMENT

SAM registered vendor.
Mobile exhaust adapter systems manufactured for KBR in support of U.S. Army operations.

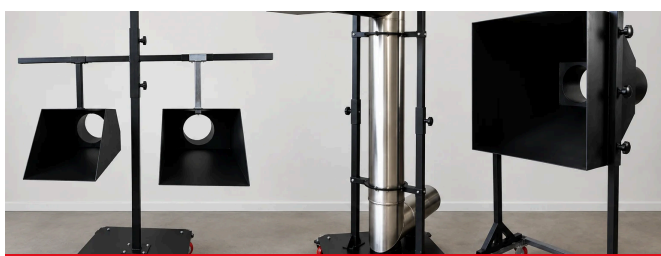

DIFFERENTIATORS

WHY FABRIKA VEGLAVE.

- Over 60 years of metalworking experience since 1965
- Full process chain: cutting, machining, heat treatment, grinding, welding
- Quality, environment and safety management aligned with ISO standards
- In-house engineering office with CAD design
- Custom one-off parts as well as series production
- Registered SAM approved vendor for U.S. Government procurement

SELECTED PROJECTS

MADE TO PERFORM.

KBR / U.S. ARMY SUPPORT

EXHAUST ADAPTER SYSTEMS

Mobile exhaust adapter units manufactured for KBR in support of U.S. Army operations.

MICHAELIS · INDUSTRIAL SYSTEMS

INDUSTRIAL INCINERATOR

A large industrial incinerator structure built for Michaelis, from steel fabrication through finishing.

QUALITY CONTROL

MEASURED TO THE MICRON.

Every part is checked in our own Quality Control Laboratory, for surface roughness, hardness and geometry, against the drawing and the relevant ISO standards.

ROUGHNESS

Mitutoyo Surftest
SJ-220

HARDNESS

Innovatest
FENIX 300

PROFILE

RESPONSIBLE MANUFACTURING

SMALLER FOOTPRINT.

- Material reuse**
Offcuts and metal chips are collected and recycled.
- Energy efficiency**
Optimised machine cycles reduce energy per part.
- Cleaner processes**
Controlled environmental impact across production, under ISO 14001.
- Safe workplace**
Health and safety built into every stage.

START A PROJECT

LET'S MANUFACTURE WHAT COMES NEXT.

Send us your drawing, specification or idea. Our engineers will review it and respond with a clear, practical proposal.
